
New Timers

WE now have timers that can be set to come on at sunset and off whenever you choose. With the automatic setting for daylight savings this timer does not require re-setting throughout the year, saving you money and aggravation. A lithium battery back-up makes this timer an obvious choice for any lighting system.

Please contact the office for more information.

WE are making a committed effort to be conscious of the environment, if we do not have your email address please call or email the office to be put on our electronic mailing list.

Additions to existing lighting...

ARE there dark spots in your yard or a pergola or pot that you would like illuminated? It is usually very easy for us to add extra fixtures to your existing lighting system. Call for a quote today!

SPRING LIGHTING 2012

Spring is almost here and we are looking forward to a great new season! We are offering our lighting service again to all of our existing customers.

Our **FULL** spring lighting service includes the following:

- Cleaning and repositioning of all fixtures.
- *All bulbs replaced.*
- All transformers and timers checked and adjusted.

Our **STANDARD** spring lighting service includes the following:

- Cleaning and repositioning of all fixtures.
- *Replacement of any burnt out bulbs.*
- All transformers and timers checked and adjusted.

This service is very important especially if you have down lights mounted in your trees. The straps that mount these lights to the trees need to be loosened in order to protect both the light fixture and the health of the tree.

All new bulbs changed in a FULL lighting service are guaranteed for one year. If they burn out we replace them free of charge to you.

As in previous years all billing will be on an hourly basis plus the cost of bulbs and other materials used.

If you would like to have this service performed on your lighting system **please email us at info@theoasisgroup.ca with your request.** This is to ensure that we have written documentation of your request for this service.

Thank you,

The OasisGroup
